

Gas Technical Conference

Every year in May the Danish Gas Association organizes "Gastekniske Dage", a two-day conference offering a number of technical presentations and a gas technical exhibition. The participants come from all areas of the gas sector. In 2018 there were 249 participants.

Themes of 2019:

- Green transition (biogas, P2X, P2G)
- Gas for transportation
- Domestic gas installations
- Gas grid and distribution
- Gas metering
- CHP (district heating) and industry
- FutureGas.

Gas Technical Exhibition

The conference is held in the hotel's 3 large conference rooms, and the exhibition area is in the foyer outside these rooms.

The coffee breaks are held in the exhibition area. We round off the day by having an hour of networking in the exhibition area, where we serve beer/softdrinks.

Participants at Gastekniske Dage

The conference caters for plumbing and heating technicians, gas industry employees, technicians, consultants, engineers, gas companies, other actors in the market, employees at gas consuming industrial companies, CHP plants, in short everybody interested in and working in the gas sector.

Become a part of the exhibition

The exhibition package consists of

- An exhibition stand (approx. 2x1,5 m)
- Presentation of the exhibitors in our technical magazine GASenergi 2/2019
- Meals both days and dinner on 22nd May

Fee per stand (1 person)

7,500 DKK for members of DGF or Foreningen Biogasbranchen.

8,000 DKK for non-members.

Fee per ekstra person 2,000 DKK - max. 2 persons per stand.

All prices are excluding VAT and hotel room.

Exhibition stand

The size of each stand is approx. 2x1.5 m. They are placed in the foyer. Exhibition layout can be seen at www.gasenergi.dk.

Booking of stand

Please use our booking site at www.gasenergi.dk. Reservation of stands is on a first come, first served basis. Book before 1st May 2019.

Hotel room

Hotel room is to be booked and paid directly to the hotel using a special form, which can be found at our website.

Advertising in GASenergi
